<p>Company-approved third party vendors secure APSs. These vendors provide excellent service in the processing of requests for medical records. Contact Banner's approved vendors for ordering procedures.</p> <p>While the average APS fee is \$55, the maximum allowable fee is \$100. General agents who are currently ordering their own APSs may continue in their usual manner. However, we strongly encourage agencies to consider requesting APSs through a company-approved vendor for the following reasons: no out of pocket fee to the physician or facility, reduced processing time and administrative efforts, and equal or better turnaround time.</p> <p>For further assistance with APS guidelines, please contact the Underwriting Department. Underwriting Considerations

Substandard

The base class for most table rated cases on non-tobacco users is **Standard Plus**, not Standard. Substandard ratings available through Table 12. Table ratings are not available on Preferred Plus Non-Tobacco or Preferred Non-Tobacco.

Reinsurance

We have a **retention schedule** of \$1,000,000 through age 75 on all preferred plus, preferred, standard, standard plus, and substandard issues through Table 4 through age 75. This schedule gives us **automatic** binding authority of \$12 million.

We currently have a \$250,000 **retention schedule**, ages 76-85, which gives us **automatic** binding authority of \$2 million through Table 8 for ages 76-80 and through Table 4 for ages 81-85. We have additional capacity available through our facultative reinsurance sources.

We have a **jumbo limit** (the amount of insurance in force and applied for on a particular applicant) of \$30 million.

Jumbo amounts are determined by adding all in force cover-ages to all amounts applied for with all companies. Coverage to be replaced is included in the total. If the total exceeds the jumbo limit, the case must be sent to our reinsurers.

Financial Underwriting

Financial underwriting is an important aspect of the risk assessment process. In essence, the underwriters must decide "if the case makes sense." Specifically, they must consider the following:

- Is there an insurable interest?
- Is there a definable loss?
- Is there a valid need and purpose for insurance?
- Does the amount of insurance applied for tie in with the amount of loss?

See page 8 and 9 for additional financial guidelines.
